XUAN-BACH LE

LECTURER
Ho Chi Minh City University of Technology
Vietnam National University, Ho Chi Minh City
268 Ly Thuong Kiet Street, District 10
Ho Chi Minh City, Vietnam

Email: lexuanbach@hcmut.edu.vn
Website: https://lexuanbach.github.io/
Phone: (+84) 886 837 321
Nationality: Vietnamese

EDUCATION

National University of Singapore Jan 2013 – Dec 2017
PhD in Computer Science
Thesis title: *Disjoint Fractional Permissions in Verification: Applications, Systems, and Theory*
Supervisor: Aquinas Hobor Advisor: Anthony W. Lin

National University of Singapore Aug 2007 – Jun 2012
Double Degrees in Computer Science & Mathematics
Specialization: Algorithms and Computation
First-class Honours

EXPERIENCE

Lecturer & Head, RAISE Lab, Ho Chi Minh City University of Technology, Vietnam Sep 2025 – Now
Head of the RAISE Lab (Reasoning in Artificial Intelligence and Software Engineering, raise-website.vercel.app). Safe AI, explainable AI, reinforcement learning, program verification, and reliable software engineering with LLMs and RAG.

Research Fellow, Nanyang Technological University, Singapore July 2023 – Jan 2025
Postdoctoral researcher under Professor Luke Ong. Devised optimality-preserving algorithms to translate LTL and ω-regular objectives for reinforcement learning into limit-average reward machines.

Research Scientist, Singapore Management University, Singapore Jan 2022 – Jan 2023
Formal methods for Program Verification.

Research Fellow, Nanyang Technological University, Singapore May 2019 – Dec 2021
Formalized mathematical reasoning frameworks to verify the correctness of complex systems that feature concurrency, quantum computation, and probabilities. Developed automatic verification tool ReGaSol and decision procedures from these frameworks.

Research Fellow, University of Oxford, UK Aug 2018 – Mar 2019
Algorithmic Verification of String-Manipulating Programs. Investigated the monadic decomposibility problem to decompose complex string constraints into simpler monadic constraints that are solvable. Proved the tight complexity bounds of the decomposibility problem for regular string constraints expressed by DFA and NFA.

Research Associate&Fellow, National University of Singapore, Singapore Sep 2017 – Aug 2018
Developed formal proof system and tool ShareInfer to handle tree share constraints that are used to model permissions in concurrent programs. Investigated methods for symbolic execution to verify programs with loops.

GOOGLE SCHOLAR

https://scholar.google.com.sg/citations?user=FnjHppEAAAAJ

RESEARCH INTERESTS

Logical frameworks and certified decision procedures for program verification; decidability and computational complexity of underlying logics; safe and explainable AI; retrieval-augmented generation; LLM agents for software engineering; program synthesis; reinforcement learning under formal specifications; quantum programming.

TEACHING EXPERIENCE AND SERVICES

Lecturer, Ho Chi Minh City University of Technology, Vietnam 2025 – 2026
CO1005 (Introduction to Computing, Semester 251, 2025), CO2001 (Professional Skills for Engineers, Semester 252, 2026), CO2039 (Advanced Programming, Semester 252, 2026)

Teaching Assistant and Lab Assistant, National University of Singapore, Singapore 2009 – 2015
CS1231 (Discrete Maths, S1/11-12, S1/13-14), CS1010 (Programming Methodology, S1/10-11), CS1102/1020 (Data Structures I, S2/09-10, S2/10-11), CS3234 (Logic & Formal Systems, S1/10-11, S2/12-13)

Grader, Yale-NUS, Singapore Jan 2017 – May 2017

YCC1212 (Introduction to Computer Science, S2/16-17), YCC2202 (Data Structures & Algorithm, S2/16-17)

Professional Services. Program Committee Member of AAAI 2027 (AI Alignment Track), EASE 2027, and APLAS 2022. Reviewer of KDD 2027 (Datasets and Benchmarks Track), ICLR 2027, AAMAS 2027, and AISTATS 2026. Sub-reviewer of ICSOC 2026. External reviewer of APLAS 2016, ICALP 2017, PLDI 2018, LICS 2018, APLAS 2018, VMCAI 2019.

SKILLS

Programming Languages and Frameworks

AI/ML:	PyTorch, SVM, probabilistic forecasting, RAG, LLM-based software analysis
Solvers and proof assistants:	Coq, Z3, CVC3
Programming:	Python, Java, C++, OCaml
Web:	JavaScript, PHP, HTML, MYSQL

Languages
Vietnamese: Mothertongue, English: Fluent, French: Basic Knowledge

AWARDS AND SCHOLARSHIPS

VNU350 Awardee, Vietnam National University Ho Chi Minh City (VNU-HCM) 2026
President Graduate Fellowship 2013 – 2017
ASTAR Pre-graduate Scholarship 2007–2012
NUS Donated Scholarship. Dean List Award 2007, 2008, 2010. Certificate of Special Program in Computing.
